APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion, place and manner of use of the waters of an underground source as heretofore granted under Permit 44081, Certificate 11196, is issued subject to the terms and conditions imposed in said Permit 44081, Certificate 11196 and with the understanding that no other rights on the source will be affected by the temporary change proposed herein. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

Additional appropriations of water from the well constructed under Permit 78187T, as represented by Applications 77712 and 77713 will be subject to additional determination and evaluation with respect to permanent effects on existing rights and the surface and underground water resources of the groundwater basin.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0412 cubic feet per second or 27.25 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:
